

October 1, 2016

Hello Team OBFF,

Trust you had an amazing summer and that the fall is going well as we finish out this year serving our King! It is hard to believe that we are entering the last quarter of the year with a report of the best year ever for OBFF. Due to affiliates prayers, faithfulness AND our committed board of directors we are becoming a healthy fellowship that is building for the future generationally. We have many young couples coming on board and desiring to be connected with us to grow together to expand His Kingdom.

For the first time ever, ***our renewal process is going to be completely digital***. This means you can expect to receive your renewal package to arrive via email. We encourage each affiliate to download your minister and ministry forms and get your completed paperwork and payment sent in as soon as possible.

I also want to encourage all the men and women of God who are not actively involved in ministry and have not been for the last few years to contact the office and voluntarily express that you plan "not to renew this year". If you decide to go back into ministry or a position opens up, then just contact our office. Your file will be held for two years ready to reactivate if things turn in that direction.

We appreciate each one of you and pray this would be the smoothest ever renewal and 100% of the affiliates would renew before the December 31st deadline. Let's together believe that this is our time now to see the Kingdom of God advance and expand across the lands of the world. Let's agree that the year 2017 would be the best ever for each one of us and finally let's agree that the Church would arise and put away all compromise, that the church would aggress and be truly blessed, and that the church would wake up to the destiny of heaven before us.

Blessings
